

Pneumatic air operated topplers , with waistband lateral tensioner. It is particularly recommended when it is necessary to respect the original manufacturing size of the garment and offers a locking system to reach a pre-set size .
 Standard equipment provides :
 Two devices with anti-stretching piston to control the waistband and leg tensioning.
 Ready for connection to an external steam and compressed air supply
 Available extras:
 Clamps for external clamping + internal hem expander.
 Automatic pocket pressing by two side steam bucks
 Device for finishing stretch pants
 Pneumatic height adjustment through joystick

Required power	230/400 V.3/50 Hz
Steam inlet	1/2"
Return outlet	1/2"
Steam consumption	15÷ 20 Kg/h
Air inlet	1/4"
Air working pressure	4 ÷6 bar
Air consumption	2 NI /Cycle
Fan motor	1,5 Kw
Encumbrance	1100x1120x2000 mm
Net weight	
Gross weight (crate)	Kg. 235
Gross weight (box)	
Overall dimensions	1200x1340x2100
