

TABZ™ Super Concentrate Coffee Brewer Cleaning Tablets are specifically designed to offer the functionality of one-step cleaning for coffee brewers and servers. By running a brew cycle with a TABZ™ tablet in the basket, users can simultaneously clean both the brew basket and server beneath. Additional TABZ™ may be used directly in servers to quickly clean systems with multiple vessels. As an added safety feature, TABZ™ tablets contain a blue dye which helps insure proper rinsing in busy service environments. We believe that TABZ™ represents an exciting new delivery concept and hope to build on this innovation in our efforts to help you continue to serve the best tasting beverages possible.

Urnex® Case Code: 13-TABZL12-30

Case Contains: 12 Jars of 120 Large Tabz™ Tablets
